Subject: Reclamation Surety Required, Staker Parson Companies, CW Pit, M/035/0049, Salt Lake County, Utah

Dear Mr. Dalley:

On April 15, 2013, the Division of Oil, Gas and Mining received a project map for the referenced operation. The map shows 70 acres of proposed disturbance. There are two existing small mines at the site which accounts for most of the disturbance. The disturbance is greater than 20 acres and as required by rule, a large mine permit and an increased reclamation surety is required. Based on 2013 small mine average reclamation costs, the amount of surety required is \$371,000. This estimate includes limited facilities (scales and scale house) that would require demolition prior to regrading and revegetation of the site for a post mining land use.

Please submit the reclamation surety and reclamation contract by May 15, 2013. Please submit a Notice of Intention to Commence Large Mining Operations no later than October 28, 2013. No mining related disturbance may be created in bedrock until the surety is received and approved and you have received written acceptance from this office as well as other applicable agencies.

The reclamation surety may be submitted in one of several forms, including, an irrevocable letter of credit, a certificate of deposit, cash or a surety bond. Please contact Penny Berry at 801-538-5291 or by e mail at [pennyberry@utah.gov](mailto:pennyberry@utah.gov) for additional information about submitting the surety. Additional questions about this letter may be addressed to Leslie Heppler at 801-538-5257 or to me at 801-538-5261. In reply please refer to file number M/035/0049.

Sincerely,

Paul B. Baker  
Minerals Program Manager
